

Year 4 - Week Commencing 9-10-17

Maths

This week the children will be continuing their great work on length and perimeter. Now that they can successfully convert cm into metres and vice versa, they will be applying this knowledge when working out the perimeters of regular and irregular shapes.

English

I would like to congratulate the children on being such imaginative and accomplished writers! Their fantasy stories are outstanding! This week we will be editing and revising them and publishing them in a book to share with the school. Feel free to pop in and have a look!

Theme

The children will be continuing to learn all about electrical circuits and how they are used in everyday life. The children will be carrying out more thought provoking activities and applying all their writing skills in order to report on what they have been doing.

I will also be concluding our RE unit of work on Buddhism.

Extras

French will be on Tuesday, PE will be on Monday and with Phil on Friday.

Unfortunately, I will be out of class on Wednesday and Thursday. Miss Anwar will be teaching on both days.

Weekly homework can be found at www.activelearnprimary.co.uk

Could you please log onto www.topmarks.co.uk/maths-games/hit-the-button as this is a great activity for your child to learn more about halving, doubling and number bonds as well as helping with their times tables.

Phonics (or spelling in KS2) Focus:

We will be continuing our work on homophones (please see the list stuck in your child's homework diary). We will also be learning 3 words taken from the Year4 statutory list which this week are: *mention, probably and therefore*.
