

Year 4 - Week Commencing 6-11-17

Maths

The children will be focussing on written multiplication this week and how to clearly show their working out. The children will also be developing their skills of explaining how they know something and how they got their answer. This is not as easy as it sounds!

English

This week the children will be beginning a unit of work based on Persuasive texts. This will link to our Science unit of work based on teeth. The children will look at a variety of toothpaste adverts and identifying all the features used to persuade.

Theme

This week we will be beginning our new theme called 'The Art of Food'. Mrs Morgan will begin by teaching the Science element of it. This will involve looking at teeth in both animals and humans. This will involve planning a future investigation involving toothpaste - the children will love it! This also links quite nicely to our English Persuasive Writing Unit.

We will also be beginning our RE and Music units of work.

Extras

Mr Maiden's daughter was born yesterday so he won't be in school Monday or Tuesday.

French will be on Tuesday, PE will be on Monday. Weekly homework can be found at www.activelearnprimary.co.uk

Could you please log onto www.topmarks.co.uk/maths-games as this is a great activity for your child to learn more about halving, doubling and number bonds as well as helping with their times tables.

Phonics (or spelling in KS2) Focus:

This week the children will be looking at words which use an apostrophe for contraction. Please ask your child about their spellings and why the apostrophe is used. Our focus words this week will be 'Imagine', 'Opposite', and 'Grammar'.
